| class-8         | Thursday, Apr     | 15, 2021 | 7:00 PM EST |  |

**Online Webinar – using Zoom**

**Study**

During the course, students receive instructions & reference material as well as assignments. It is the students’ responsibility to practice extensively on their own, in addition to class time, in order to ensure their success.

## Software - Recommended - Before the Course Starts:

In addition to the standard required material (calculator, Ephemeris, Table of Houses) it is strongly recommended that the student own/purchase quality astrology software that can run dynamic progressions, solar arc directions, solar return, etc.  
Running charts online will not do !

- 1) CALCULATOR - Casio Scientific: **CASIO-*fx*-###** series (for sexagesimal calculations)  
Recommended – get on Amazon: <https://goo.gl/8B1fN4>
- 2) THE AMERICAN EPHEMERIS - **Midnight** - by Neil Michelsen.  
1900-2000 (20<sup>th</sup> century)  
2000-2050 (21<sup>st</sup> century)
- 3) TABLE OF HOUSES The Michelsen Book of Tables (Placidus Houses)

## CURRICULUM

This course teaches Chart Rectification, which is the required first part of the NCGR-PAA L-IV Certification Exam. For the other L-IV Certification modules and options, please consult the Study Guide.

1. Understand the NCGR-PAA Test Requirements
2. Rectification Procedures – Working with The Data
3. Rectification Techniques and Prioritizing the Observations
4. Planetary Combinations that Characterize Specific Events
5. Working Dynamically with the Software
6. Assignments: Three Case-Study Nativities
