

TESTIMONIALS

Read What the Students are Saying ...
(names are withheld)

"Not only were the **Level-2** calculations explicated beautifully by Meira with her very clear and ingenious calculations methods and time saving shortcuts/tips, but my grasp of **Level-1** astrology calculations was also greatly bolstered as we reviewed this earlier material using Meira's most useful techniques."

"Meira not only covered all the basic material required for the **Level-2** exam calculations, but that she also took us deeper into the material to give us a fuller understanding of the power of the techniques."

"I have served clients in my private psychotherapy practice for over 30 years. I had very little background in astrology. When I decided to study it seemed a natural fit to look in the direction of the NCGR.
I am so glad I did!

Meira's perspective provides a wonderful balance to my bias toward a more humanistic, psychologically oriented way of looking at things and her thoroughness, precision, attention to detail and sense of humor are things that I really appreciate and enjoy..."

"It's been a fantastic class for me. I never thought I would be able to **"get" the math**, but I think I am getting it! Thank you so much for your patience."

"**Chart calculation** in particular can appear intimidating! It surely conjured a certain dread for me....but Meira knows this...and through some practically magical process....**involving humor, patience, inordinate persistence and sheer inspiration....it became for me an easy thing to grasp.**"

"I'd been my own teacher for over a decade, reading everything I could and practicing with friends and family, but not once did I check out the very basics. **Level-1** was **an eye-opener** for me. It expanded my understanding of astrology itself! "

"Meira is an excellent teacher of classical astrology. Her vast experience and unique style of teaching make learning astrology fun! Meira helped me to **understand the organic meaning behind many of the techniques**, some of which I had learned from past teachers, but never fully understood. "

"The slides are all very beautiful and most helpful in understanding the **astronomy and the astrology**. It is truly wonderful to see the two fields integrated so well."

"Although the NCGR Study Guide provides a good overview of topics covered in the certification exam, it is so easy to get lost in a subject matter that is as large as the cosmos!

Meira takes this immense subject and each topic, gathers the best visual aids, and concisely presents each in a way that facilitates learning and at the same time puts the topic in the **bigger astrological context**. That is something I could never do own my own.

The **Astronomy-for-Astrologers** diagrams and accompanying presentations are invaluable tools that will continue to help me in my studies. They alone are worth the cost of the class."

אני ממש שמחה להיות חלק מהתלמידים
בקורס שלך ופשוט נהנית
לשמוע אותך מנהלת את כולם ויחד עם זאת
עם הרבה תשומת לב ויחס חם ואוהד
זה כיף אמיתי מחכה כל השבוע ליום רביעי
ולשעה שתיים לפנות בוקר 🤗. אושר
אמיתי

"During the course of the **Level-1** class she brought us ever so passionately, ever so patiently, ever so thoroughly through the basics of astronomy for astrologers, through the very detailed steps of natal chart calculation and on to the basic symbolic representation of the planets, points, signs and aspects."

"I cannot possibly fully communicate my delight in this class...you will have to taste it for yourself to know!"

"Meira's online class **visuals are clear, precise and reflect the beauty and elegance** that she has discovered during her own many years of study and teaching. Even more amazing is **her teaching style**....she sprinkles in stories, a bit of her own delight in the subject at hand, a little astrology that is more advanced than what the students can quite yet grasp....**all of which inspires, adds to the intrigue**....and motivates the students to persevere through the more challenging aspects of the study. "

"I enjoy every moment of it and I have learned a lot from you, especial the way to **combine details in the chart and deliver message to the client.**"

"I just wanted to say thank you for all the energy and attentiveness you put into our classes. Also, I appreciate that you've been firm where you need to be. Your teaching style motivates me and keeps me on track; I feel accountable. It's effective for me because you're not only firm, you're fair and reasonable. Clearly, you care about your students and you want them to succeed. Thank you for all that you do! I'm grateful to have you as my instructor!
P.S. You're also erudite, engaging, and humorous! **An excellent combination!**"

"Just wanted to say **THANK YOU!** I learned a lot regarding astronomy, and of course, the calculations as well. And a lot of it was a good review for me. As Michael pointed out, you really "**un-muddled**" the language of astrology and I appreciate your "no nonsense" classic approach to this study.
I am looking forward to **Level-2.**"

"Thank you so much for everything, Meira! I can't begin to tell you what these classes (and your support) have meant to me. **Taking professional astrology classes was a dream of mine for a long time**, and when I think back to where I was two years ago and how I thought I already knew so much about astrology, I'm humbled. Every week I learned so much and realized how much I still had left to learn, and also hoped we had more time together. Even so, **I am a much more confident astrologer today thanks to you.**"

"Final Reflection for NCGR L-IV Courses

Together, the L-IV Chart Rectification and Consultation classes prepared me to read at a professional level. Prior to these classes, I had read for friends and family in spontaneous scenarios, but the structure for a professional reading was missing. Also, I had questions about how to focus an astrology reading and how to present certain types of information."

"**The L-IV classes** also functioned as a launching pad for me because **students were asked to contribute charts from real people—not celebrities.** In my case, that meant reaching out to potential clients, people beyond the sphere of family and friends.

The experience helped me to **break through a tough barrier:** that of reading for someone unknown. In this way, **the L-IV classes were a place of metamorphosis, a place where I learned to fly.**

In truth, I have much to do before I can consider myself a full-fledged, professional astrologer. Business considerations, lack of experience, and a new persona are some of the challenges I need to face and overcome. **Still, I know that completing NCGR L-IV coursework was an important milestone that put me in reach of my goal.**

Thank you, Meira, for guiding me, and all of us, on this ancient and honorable path!
