ABOUT THE ATLAS - A NOTE TO STUDENTS & TEACHERS

It has become increasingly difficult to obtain these books (both new and used), and therefore, as of July 1, 2018 the NCGR-PAA board has decided to not require using them at the exams. Instead, the necessary data (Longitude, Latitude and Time Zone) per the specific charts calculations will be provided along with the exam forms.

Students may still choose to get these books for practice purpose. If a student taking the exam still wants to use the Atlases in the test that's OK, but it will not be necessary.

NOTE: This change does not eliminate the need for the student to know how to use the data in the calculation, as well as understand the dynamics of Geographical Coordinates and of Time-Zones.
