Introducing the

**Alexandria
iBase Project**

MISSION:

To preserve a comprehensive and well-categorized bibliography of astrological treasures from around the world, available for everyone to use and enjoy at no charge.

20,000 ENTRIES TO DATE AND GROWING FAST

- Curated by AIP librarians with search by subject, author, title, or publisher.
- Resource links to physical and digital libraries and free downloads.

This year, with the support of Urania Trust, AIP is now established as a 501C3 Educational Non-Profit with a paid staff of three librarians and two project specialists.

In spring 2022 we are planning to substantially increase scanning capabilities and make available for download a major collection of historical and out-of-print content.

We are positioned to grow and we are asking the astrological community to support this important work.

We need ongoing financial support to proceed.
Help us preserve our astrological legacy for future generations.
