

Syzygy

RESEARCH, INSIGHTS AND NOTIONS

from the NATIONAL COUNCIL for GEOCOSMIC RESEARCH

GREETINGS ALL!

It is with great pleasure that I welcome you to the transformed NCCGR Research Journal **Syzygy**!

Diane Ullemeyer-Trimbath and **Richard Smoot** have both worked tirelessly to see this to completion.

With **Syzygy**, we invite you to play with any and all astrological ideas that come along, to write those up in any form you like and submit them to our Kitchen Table Astrology section. So often good ideas can be tucked in a corner because there is a worry they might not be properly fleshed out or that they might not cover all the bases. No longer! We can start with the basics then work together to build ways of testing ideas. Together we can work to move these gems of wisdom along, either as a qualitative or quantitative study, with lots of help from the NCCGR family.

Do you have any questions about research? Send them along and we will post and answer them in upcoming issues.

The National Council of Geocosmic research was founded on two main principles: research and education. **Syzygy** is the new platform to encourage and showcase both.

Thank you

Mj Patterson, (Lt. Ret'd) BA BSc BEd MEd CA NCCGR-PAA
Research Director

Prelude KITCHEN TABLE ASTROLOGY

- 2 Every Astrologer Is A Researcher **Mj Patterson**
- 7 Experiments with Lunar Gardening **Deborah Clahane**
- 12 Easy Machine Learning with Astrology **Renay Oshop**
